Enterprise Community Partners/Thome Aging Well Program

Enterprise
875 Hollins Street
Baltimore, MD 21201

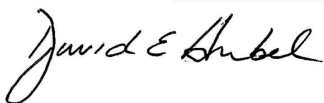

Dear Enterprise Community Partners/Thome Aging Well Program,

We are looking forward to collaborating with Cycling Without Age. We support the Cycling Without Age proposal to provide their Regeneration program in Michigan and Maryland. Providing the ability for older adults to take bike rides despite their physical and/or mental limitations, will help to improve the quality of life for many older adults. LeadingAge Michigan has over 300 member providers who serve older adults, who would directly benefit from the expansion of Cycling Without Age's Tri-shaws. Their Tri-shaws are three wheeled adaptive bikes that remove barriers of cycling for older adults.

The Cycling Without Age Regeneration program has the ability to have a great positive impact on our communities.

Through this letter, we acknowledge our interest in working with Cycling Without Age, on behalf of older adults in Michigan, to enjoy the benefits of trishaw rides. Our Member Success Coordinator, Kelly Price, will be the lead for this collaboration. Kelly will be responsible for handling questions and concerns for this project. We understand that we will not be expected to make any financial contribution to join.

Sincerely,

A handwritten signature in black ink that reads "David E. Herbel". The signature is fluid and cursive.

David E. Herbel, BA, MSA, NHA
