Ole Kassow
Founder, Cycling Without Age
Otto Busses Vej 5, 1.,
2450 Copenhagen SV, Denmark

Dear Mr. Kassow:

The Detroit Riverfront Conservancy is looking forward to working together with your group, Cycling Without Age, to provide older adults and those aging in place better access to the Detroit Riverfront.

Many elderly citizens in the City of Detroit do not have the ability or the opportunity to visit and make use of our beautiful riverfront. The Detroit Riverfront Conservancy strives to provide an equitable and accessible riverfront for all people, regardless of their age or physical limitations. By partnering with Cycling Without Age, we will be able to expand access to these more vulnerable populations and improve the quality of life for many.

The Detroit Riverfront Conservancy fully supports the Cycling Without Age Regeneration Program and the application to be an Enterprise Community Partner through the Thome Aging Well program. We are hopeful that Enterprise will fund your program here in Michigan and look forward to partnering with Cycling Without Age in the future.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark Wallace'.
